# Foreword

We are pleased to share with you the Birmingham Safeguarding Children Partnership (BSCP) Business Improvement Plan for 2025-27, setting out the safeguarding priorities to protect and promote the wellbeing of children and young people in Birmingham from the 1st April 2025. As the three statutory Lead Safeguarding Partners, we work in close collaboration with the Birmingham Children's Trust, sharing equal responsibility for ensuring effective oversight and accountability for the implementation of the Business Improvement Plan.

In determining the four key priorities, we have reflected on the progress and challenges we have faced during the last two years. We have consulted a wide range of partners to help identify and agree the key areas where we will focus improving partnership intervention over the next two years, to further strengthen our collaborative working arrangements to safeguard and protect children and young people across the city.

We acknowledge that successful implementation of the Business Improvement Plan will be judged on the difference it makes to the safety and wellbeing of children and young people in Birmingham. We will publish a Yearly Report documenting the progress we have made on implementation of the two-year Delivery Plan. We will also present progress reports to the Birmingham Children and Young People Partnership Board, as well as the Education and Children and Young People Overview and Scrutiny Committee on an annual basis.

We remain extremely grateful to all our partners, front-line practitioners, volunteers, and those special individuals in our community, for their steadfast commitment to keeping children safe in Birmingham, improving their life chances, and helping us achieve our shared ambition that Birmingham is a great place to grow up!

# Introduction

The Business Improvement Plan 2025-2027 sets out our shared ambition, purpose, principles, values, and how we will hold partners and partnerships to account by implementing our safeguarding priorities over the next two years. This plan complements and builds upon partnership collaboration overseen by the Birmingham Children and Young People Partnership Board, as we both have the same shared ambition for children and young people in the city. The Business Improvement Plan should be read in conjunction with the partnership's [Governance Arrangements](#), which were revised in December 2024.

BSCP works in close collaboration with key statutory partnerships across the city to keep children safe and endorses the shared strategic ambition set out in the [Change for Children and Young People Plan 2023-2028](#).

## **Our Shared Ambition**

Our shared ambition is to enable Birmingham to be a great place to grow up.

## **Our Shared Purpose**

Our shared purpose is to ensure that our multi-agency safeguarding arrangements enable local agencies and organisations to work together to effectively safeguard children and promote their welfare.

We will provide strong leadership, share risk and accountability, and promote effective partnership working by:

- setting standards, providing guidance and procedures for multi-agency safeguarding practice, and promoting and embedding a learning culture which supports local services to become more reflective and implement improvements to practice;
- promoting a culture where organisations and agencies are challenged appropriately, effectively holding one another to account;

- ensuring there is a shared vision for how to improve outcomes for children locally, across all levels of need and all types of harm;
- ensuring that senior leaders have a good knowledge and understanding of the quality of local practice and its impact on children and families, and drive improvements through the partnership sub-groups to implement changes;
- creating a system which enables the voices and lived experiences of children and families, together with the knowledge and insights from practitioners and data, to provide a greater understanding of our strengths, areas for practice improvement, and multi-agency safeguarding arrangements;
- ensuring a programme of learning and development that supports leadership and practice, and takes into account learning from rapid reviews and Local Child Safeguarding Practice Reviews;
- ensuring that information is analysed in terms of protected characteristics, enabling an understanding of outcomes for different communities of children to support more effective safeguarding responses;
- effectively collecting, sharing, and analysing data, other information, and intelligence which enable early identification of new safeguarding risks, issues, emerging threats, and promotes joined-up responses across relevant agencies.

The Business Improvement Plan sets out the strategic intent of the BSCP in making our shared ambition a reality. It underlines the statutory objectives of the BSCP to coordinate and ensure the effectiveness of safeguarding arrangements.

## Our Shared Principles

The work of the BSCP is based on five key shared principles:

- **Effective Partnership Working:** Committed to effective collaborative partnership working which delivers the best possible protection of children in this young, diverse, and creative city.
- **Focus on the Family:** Supporting families to enable their children to flourish and learn in preparation for a long, productive, happy, life.
- **Committed to Early Help:** Recognising that those with economic, health, and other disadvantages will need additional support to achieve the same outcomes as their peers.
- **Commitment to Equity, Equality, Inclusion and Diversity:** Recognising the impact of discrimination and disadvantage on children and families, and seeking to ensure that our services address this proactively to ensure children are effectively safeguarded.
- **Promotion of a Learning Culture:** Operating as a learning system; open and ambitious to improve.

## Our Shared Values

As a partnership, all our work together is underpinned by our shared values and principles.

- **Openness:** We are open and honest with each other, children, young people, families, and communities.
- **Integrity:** We take responsibility for our actions and we keep the commitments we make to partners and to children, young people, and their families

- **Boldness:** We support and challenge each other to take risks and are committed to action and making things happen.
- **Collaboration:** We value the contribution made by all our partners; we build and maintain good quality relationships with children, young people, and families.
- **Learning:** Our partnership will achieve the best possible outcomes for children and young people if we create opportunities to learn together as a system.
- **Professional Curiosity:** We will demonstrate appropriate professional curiosity in all our work, across all our agencies.

## **Our Shared Priorities**

In January 2024, safeguarding partners held a development session to review progress in respect of our existing priorities for 2023-25, and to consider its priorities for the coming two years from 1st April 2025. These were subsequently agreed by the Delegated Safeguarding Leaders in February 2025.

The safeguarding partners have identified four priorities for 2025-2027. The Delegated Leaders and the Executive Board will oversee their effective implementation through the Delivery Plan, which forms part of this Business Improvement Plan.

### **Our Shared Priorities 2025/27:**

The Delegated Safeguarding Partners have identified four priorities for the next two years, which the Executive Board will oversee the effective implementation through its Business Improvement Plan 2025-2027.

#### **Priority 1: Working together more effectively**

Implementing national reforms to strengthen multi-agency practice to support families and safeguard children.

#### **Priority 2: Voice of the Child & Family**

Ensuring children and parents/carers views are central to our multi-agency practice and engaging children and families with lived experience to improve our multi-agency safeguarding arrangements.

#### **Priority 3: Children Out of Sight**

Developing multi-agency pathways to better support and safeguard children who are at risk of, or who have become, out of sight to services.

#### **Priority 4: Harm Outside the Home**

Improving earlier identification and responses to children at risk of, or who are engaged in, serious youth violence, or who are being criminally and/or sexually exploited.

## **How we will ensure effective implementation**

Annually, the Lead Safeguarding Partners will reflect on progress, performance, and take account of emerging themes to refocus partnership activity on delivering the priorities set out in the Business Improvement Implementation Plan. Each Delegated Safeguarding Partner will act as a Senior Responsible Officer for one of the four specific priorities, helping to support effective implementation of the Delivery Plan. The below delivery plan sets out key actions, desired outcomes and how progress will be evaluated over the next two years.

The Lead Safeguarding Partners will have overall responsibility for the effective implementation on the Delivery Plan and will formally publish a Yearly Report detailing progress.
